Re: Court Rule No. 2003-47

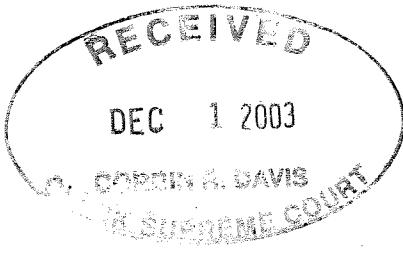

Dear Sir,

The Mich Constitution as well as the U.S. Constitution makes it clear that judges are not to make the law but rather interpret the law. Why is the Mich Supreme Court even considering taking steps that would effectively change the law by denying Mich asbestos disease victims their right to a jury trial.

It seems the Mich and the Mich Supreme Court are being used as tools of the asbestos industry and big business to deny working people their Constitutional rights to jury trials when harmed by corporate misconduct.

The crisis in the state of Mich regarding asbestos litigation is the fact that big business, corporation, the asbestos industry and law firms like Hickinson Wright feel free to try to take working peoples lawsuits out of court and away from juries.

We are opposed to this unconstitutional, illegal and politically motivated effort to deny working people of their right to a trial by jury.

Yours truly
